MCC A320 / B737

MULTI CREW COOPERATION & AIRLINE PILOT STANDARDS

From multi-crew operations to airline standards

Training in approved FNPT II MCC simulators based on the Airbus A320 and Boeing 737

Flyschool Air Academy

The MCC course develops the competencies required to operate safely and effectively in a multi-pilot cockpit. Training focuses on crew coordination, communication, task sharing, decision-making, leadership, and the management of normal, abnormal, and emergency situations.

MCC
